

## Home Made Explosives (Identification, Process, Disposal) (Course ID EXPL-CS-0018)

The course target audience is Military EOD, State and Local Bomb Technicians, ATF Certified Explosives Specialists, and Explosives Enforcement Officers. The pre-requisites for this course are successful completion of Hazardous Device School and ATF's Advance Explosives Disposal Techniques (AEDT). The pre-requisites are waived for all Military EOD. The objectives of the course are to expose personnel to the precursors used in the manufacture of homemade explosives, identify the hazards of mixed or partially mixed precursor chemicals, identification for sampling of suspected chemicals, evidentiary collection, scene Processing, remote methods of removing, and the safe Disposal of such HME hazards. Program Costs: State and local students – Tuition, lodging and airfare costs for this program are being covered by ATF. At this time, we are no longer able to reimburse mileage for those who drive personally/agency owned vehicles to the training. In addition, we do not cover miscellaneous expenses such as airline baggage fees, vehicle parking or taxi/shuttle, incidental expenses such as laundry costs and ATM fees. State and Local students will be reimbursed for airfare and meals (M&IE) by direct deposit, following submission of a travel voucher at the conclusion of the training program. Military students – Tuition is covered, you will be responsible for all travel expenses (transportation, lodging and per diem). When submitting the application please enter your HDS certification expiration date and your AEDT graduation date in the *Briefly Describe Your Area of Responsibility and Duties* section. Thank you, we look forward to working with you.

Application: Download [ATF F 6310.1](#) — Training Registration Request for Non-ATF Employees. Send the completed application via email to [hmeprogram@atf.gov](mailto:hmeprogram@atf.gov). Those selected will be contacted via email with available course dates.
